

NATO Calls For Truce In Far East

End To Cold War In Europe

PARIS (AP)—The 15 nations of the Atlantic Alliance called Wednesday for a truce in the Far East and a Big Four agreement on European problems to end the threat of World War III.

They solemnly warned that further fighting in Asia will "clearly endanger the peace of the world." The dispute over Formosa obviously was uppermost in their minds, though that issue was not spelled out in their final statement.

They told the United States, Russia, Britain and France that the reunification of Germany and a general disarmament agreement should be their main tasks at the four-power "meeting at the summit" proposed by the Western Powers.

The call for an end to the hot war in Asia and the cold war in Europe was issued by the council of the North Atlantic Treaty Organization.

In a three-day meeting, the council—composed of the foreign ministers of the NATO nations—made a sweeping review of East-West problems and admitted West Germany as NATO's 15th member.

The ministers, in their final communiqué, hailed the addition of West Germany's 50 million people to the Atlantic community and the formation of the seven-nation West European Union as steps which will promote peace.

At the same time, Soviet counter moves drew attention.

Western leaders studied a new Russian plan for world peace calling for the immediate withdrawal of most foreign troops from both East and West Germany, big power arms cuts and a controlled ban on atomic weapons. Some Western proposals advanced as far back as 1947 were incorporated.

Believe President Will Veto Postal Workers Pay Hike

WASHINGTON (AP)—Congress Wednesday sent to President Eisenhower a bill raising the pay of 600,000 postal workers by an average of 8.8 per cent. There are indications he may veto it.

Senate approval completed congressional action on the measure, a compromise of differing bills passed by the Senate and House earlier.

The Senate vote was 66-11. The House passed it Monday 326-66.

Russia Wants To End Cold War: Bulganin

WARSAW, Poland (AP)—Premier Nikolai Bulganin told leaders of Soviet bloc countries Wednesday that Moscow wants an end to the cold war, with a Big Four conference, German reunification and world disarmament.

But he made it clear Russia and its seven European allies, whose representatives are gathered here, will go through with plans to pool their armed forces under one command. They will negotiate a treaty of mutual security and aid to offset West Germany's admission to NATO.

At the same time Bulganin called for sweeping governmental controls over newspapers, radio and other mass communications media in all U.N. countries—west as well as East—to head off any "utterances urging war and fomenting hostility among nations."

Correspondents were not admitted to conference sessions. A Soviet spokesman told the newsmen what Bulganin said. His speech also was broadcast by Moscow radio.

Represented here by their Premiers, foreign and defense ministers are Russia, Poland, Czechoslovakia, Romania, Bulgaria, East Germany, Hungary and Albania. Peiping sent its defense minister as observer.

Bulganin said repeatedly that West Germany's emergence as a NATO power created a new situation, and that letting the Bonn regime rearm is a major obstacle to German reunification.

Declaring Russia is ready to support any acceptable proposal for this reunification, he suggested most of their troops from Germany, leaving only skeleton forces until that country is united and free.

Regarding a Western invitation to him to meet with President Eisenhower, British Prime Minister Eden and French Premier Faure, Bulganin promised his government will study the proposal carefully.

Bulganin said radical measures are necessary to reduce international tension and that the first step should be an end to the cold war. Then he declared all countries should impose tight surveillance over communications media to prevent any "pro-war propaganda."

Under the plan, a group of Americans would inspect Russian collective farms, and a Russian group would take a look at free enterprise corn and hogs.

Eisenhower told his news conference he still favors the exchange, as he did early in March. The President said he was not sure but he thought a decision had been made.

A check at the State Department developed that all but the technical details had been settled. That was when Moscow radio reported the Russian delegation would have official status. As such, the delegates would not be required by U.S. immigration laws to be fingerprinted. This provision applies only to unofficial visitors.

The State Department is expected to announce by week's end a detailed plan for picking a U.S. farm delegation. It is expected to number about 12, the same estimated for the Soviet group.

VOTE ON POSTAL WORKERS PAY HIKE

WASHINGTON (AP)—Here is how the following Midwestern senators voted Wednesday as the Senate adopted 66-11 the postal pay conference report and sent it to the White House:

Illinois—Douglas (D) and Dirksen (R), both for.

Indiana—Capehart (R) for; Jenner (R) absent or not voting.

Steelworkers To Ask Substantial 'Wage Increase'

PITTSBURGH (AP)—CIO United Steelworkers President David J. McDonald said Wednesday his union will ask the basic steel industry for a "substantial wage increase." "In an unprecedented move the union will negotiate with the industry's six biggest companies at the same time."

The demand for a substantial wage increase was approved Wednesday by the union's powerful 170-member Wage Policy Committee, McDonald said. No specific figure was spelled out. He declined to define "substantial."

The steelworkers now earn an average \$2.33 an hour.

The negotiations will open with U.S. Steel Corp. June 7 in Pittsburgh.

McDonald said arrangements have been made with five other companies to open negotiations in Pittsburgh immediately after talks get under way with U.S. Steel. He said negotiations will be separate with each company.

Women's Clubs Back Law Against Obscene Book Sale

CHICAGO (AP)—The Illinois Federation of Women's Clubs Wednesday threw its support behind pending Illinois legislation to halt the sale of obscene publications to persons under 18.

The federation convention adopted a resolution calling for passage of HB 764 by the Illinois General Assembly.

This bill would make it illegal "to wilfully or knowingly sell or distribute to any person under the age of 18 any book, pamphlet, magazine, comic book or other publication devoted to the exploitation of sex or other matter of indecent character, which for a person under the age of 18 years, is obscene, lewd, filthy and indecent."

The resolution said the sale of such matter is "found to be a contributing factor to juvenile delinquency."

U.S. To File Antitrust Suit Against ANPA

DES MOINES, Iowa (AP)—Attorney Gen. Herbert Brownell Jr. said Wednesday the government would file a civil antitrust suit Thursday against the American Newspaper Publishers Assn. and certain advertising organizations.

The government has alleged that the system used by publishing industry trade groups to grant accreditation to advertising agencies is in violation of the Sherman Antitrust Law.

Brownell's announcement came less than 24 hours after Richard W. Slocum, ANPA president, had charged that the Department of Justice was refusing to discuss the issues with ANPA officials unless the newspaper group pleaded guilty in advance and agreed to a consent decree.

"If in spite of the filing of the suit, ANPA and the others want to discuss the case, we will be glad to do it," said the attorney general. "That's our regular policy."

Brownell was in Des Moines to address a state Republican dinner.

Told of the attorney general's announcement, Slocum said he did not care to make any comment until he had further chance to study Brownell's statement.

L&N Workers Return To Jobs

LOUISVILLE, Ky. (AP)—Striking Louisville & Nashville Railroad workers returned to their jobs throughout the 14-state system Wednesday, ending a 58-day walk-out.

Passenger service was suspended along the 4,737-mile line during the strike. It will be resumed Monday. Freight service, curtailed during one of the nation's longest railroad strikes, was moving again.

Closed hearings on issues which caused the strike will open Thursday in Washington. Francis J. Robertson, 45-year-old attorney, was selected as arbitrator to conduct the hearings. His decision, expected within a week, will be final and binding.

Ike Sounds Caution Note On Big 4 Meet Proposal: Fishhooks In Soviet Bait

Program Receiving Careful U.S. Study

WASHINGTON (AP)—Russia's new disarmament program would wreck the system of military bases which the United States has been developing since World War II in the Far East and Europe to offset Communist military might.

The disarmament program is receiving, however, careful examination from officials here and in London and Paris. President Eisenhower said Wednesday it would require study before he could comment.

Nevertheless it is evident that on the first reading U. S. officials are highly skeptical about the degree of good faith behind the Moscow plan.

They found it also full of fishhooks on which the Western nations might get caught if they swallowed the disarmament bait.

Undoubtedly the disarmament program will be an item pushed by Soviet Premier Bulganin at any Big Four meeting with President Eisenhower and other Western leaders.

Some of the proposals which looked like tricky gimmicks to analysts here were these:

1. Nations agreeing to the program would undertake to "disarm" all their bases on the territories of other countries by some time in 1957. That would eliminate U.S. bases in Allied countries in the Far East and Europe.

2. The United States, Russia, Britain and France would withdraw all but small portions of their troops from Germany, back "to their national frontiers." That would assure the removal of United States forces from Europe.

3. The Germans would be permitted to establish "strictly limited contingents of local police forces" under four-power control. That would seem to end the prospect of West German rearmament.

Discriminations in trade would be eliminated, to promote "broad economic cooperation" among nations. That would mean an end to such things as the embargo on trade with Red China.

Louisville UAW Vote For Strike

DETROIT (AP)—CIO United Auto Workers negotiators who are seeking a new contract with Ford Motor Co. drew overwhelming support Wednesday from union members at Louisville, Ky., where first returns from a strike vote among 140,000 Ford production workers were reported.

The union said workers from Local 862 at Louisville voted 1,633 to 28 in favor of a strike if Ford does not meet the union demands. Some 93 workers did not vote.

UAW officials said the strike authorization vote would be taken among 218 other bargaining units representing 325,000 Ford and General Motors workers before the end of the month.

A "yes" vote would permit union leaders to call walkouts at any time after the Ford contract with the UAW expires June 1 and the GM pact runs out June 7.

Meanwhile, Ford resumed bargaining with the union Wednesday for the first time in a week. Generous offer Monday.

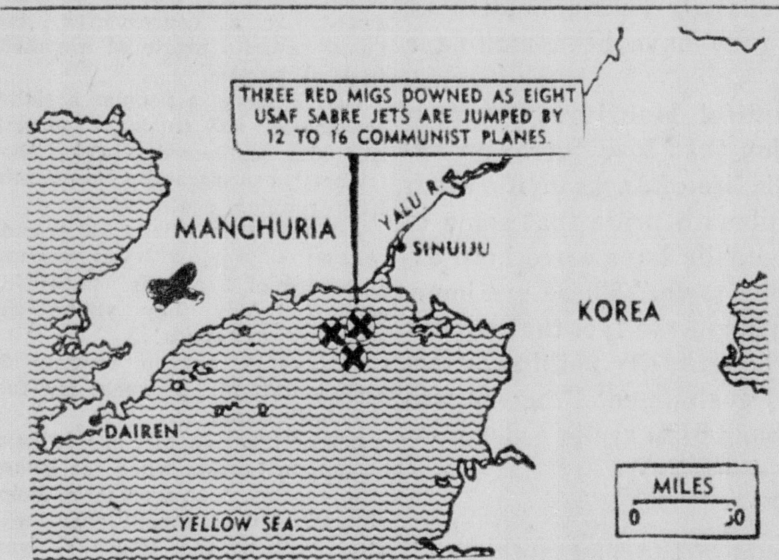

The guaranteed annual wage is at the head of the list of union demands.

CIGAR SMOKER, 31, HAS SWORN OFF

BETHALTO, Ill. (AP)—Earl E. Welton, the 31-year-old cigar smoker, has sworn off.

Instead of a good cigar now, he reaches for an ice cream cone.

Earl's mother, Mrs. Earl C. Welton, said Wednesday she began weaning Earl from cigars last week.

MAP AERIAL DOGFIGHT—Newsmap locates area where U. S. air force says eight sabrejets on patrol over international waters off North Korea were fired upon by a flight of 12 to 16 Red MIGs, 50 miles southwest of Sinuiju on the Yalu River. In returning the fire, two MIGs were shot down and a third was damaged.

WASHINGTON (AP)—The United States Wednesday protested that an attack by Red Chinese jet planes on eight U. S. Air Force fighters off Korea was "unwarranted and illegal."

The State Department said Gen. Maxwell D. Taylor, United Nations commander in Korea, was instructed to lodge this strong protest with the Military Armistice Commission in Korea.

Eight U. S. Air Force Sabrejets shot down two and probably three of an estimated 12 to 16 Communist planes which jumped them Tuesday over international waters, according to the Air Force report.

The President said he believes "implicitly" the Salk vaccine "will, within a measurable time, really eliminate polio in this country."

Scientists have said the vaccine was 60 to 90 per cent effective in last summer's tests. Presumably Eisenhower was thinking of improvements in vaccines and techniques.

He said he thought it was not the "medical theory" of the vaccine which was in question, but the manner in which it is being manufactured.

There are indications some fresh supplies of the vaccine may be released by the government by the weekend and the vaccination program resumed.

Shortly after the President's news conference, the Public Health Service announced that confirmed cases of polio among persons inoculated with the Salk vaccine had risen to 62.

"MISS GOOD MORNING" IS MRS. ROOT

CHICAGO (AP)—Mrs. Mary Ellen Root, 34-year-old Milwaukee waitress, Wednesday became Miss Good Morning.

She beat out three other finalists during a serving demonstration at Navy Pier and was adjudged the nation's best waitress at the National Restaurant Assn. convention.

Mrs. Root resides at 809 N. 27th St., Milwaukee, and has worked in the Antlers Hotel coffee shop 14 years.

She gets \$500, a wardrobe, a trip to Paris and London, and a chance to appear on a TV show. The contest was sponsored by the restaurant group and the Kellogg Co.

Navy Gets Hamburger Orders 'Eat It Up' All 886,020 Pounds

WASHINGTON (AP)—The Navy has found something to do with all that hamburger that's been in the news lately: Eat it.

And orders to do exactly that were issued three months ago, before all the publicity about the 886,020 pounds of canned hamburger in the Navy's larder.

Rear Adm. R. J. Arnold, Navy supply chief, told of the eat-up order Wednesday. President Eisenhower got into the controversy too, saying all the meat probably could be eaten up in five days, if need be.

The hassle started with a report from the Hoover Commission on Reorganization of the Government that the Navy had enough canned "burger" to last 60 years at the current rate of use.

The Navy said much of it was an emergency reserve for mobilization. It contended too that the consumption rate was higher than the commission figured.

But the talk kept right on, cropping up before the House Government Operations Committee and in Eisenhower's news conference.

Could Test Russians' Sincerity

WASHINGTON (AP)—President Eisenhower said Wednesday the proposed Big Four meeting could clear the air somewhat and show whether the Russians, sincerely want to ease tensions "around the world."

The President told a news conference, however, the whole thing still is in an exploratory and experimental stage. He cautioned against a "stubborn" refusal to expect any good from the idea, but he added in tones that suggested little enthusiasm:

"There is no expectation on my part that in a few hours, a few days, a few weeks this world is going to be turned around—by no means. And I am not going, if I do go, under any such thought."

This "if" note cropped up several times as the President answered questions stemming from Tuesday's call by the Western Powers for a meeting of Eisenhower, British Prime Minister Eden, French Premier Faure and Soviet Premier Bulganin in an effort to remove "sources of conflict."

The Soviets have not yet replied to the Anglo-American—French bid, which represented a change in American policy. Previously the President had opposed any early top level meeting—at least until after the four foreign ministers had laid the groundwork.

Asked why he changed his mind, the President spoke of "a growing sentiment" throughout the world—"a vague feeling some good might come out of such a conference."

With great emphasis, he said "this business of trying to reach a clarification of issues, if such a thing is possible, is so important that you can't stand on any other principle except (to) do your utmost—as you preserve your own strength of position."

Eisenhower said he thought a Big Four conference shouldn't take more than about three days. And he said he thought such a meeting "if held at all" should be held in "one of the so-called neutral countries." Reports from Europe suggested Switzerland was a likely choice, probably in July.

EDUCATION AT MacMURRAY

As the news columns of this paper have indicated, MacMurray College is engaged in a ten-year Development Program. The total plan calls for the attainment of \$4,000,000 during this period of years. The Jacksonville phase of the program is currently in process.

Jacksonville has been referred to as the Athens of the West and our citizens have been proud of this title. However, our claim to educational distinction can be made good only if we accept our share of support for the program which our colleges offer.

MacMurray has attained national eminence through its rating as fifth among colleges for women in the percent of those going on for graduate study. This indicates that MacMurray has been preparing its students in an outstanding fashion and that they have been making a name for themselves.

We may admire the beautiful MacMurray campus and remember with appreciation that MacMurray brings some \$800,000 into the economic life of Jacksonville every year. We may also call to mind with pride that some of the leading industries of Jacksonville have come here explicitly because this is a "college town." These are benefits which we absorb just by virtue of the fact that we live here. Can we expect all these benefits for nothing? Generous gifts to the MacMurray Development Program will make a good college stronger. Such gifts are in order now.

LIKE STORYBOOK STUFF

If the rapidly shifting events of the Vietnamese civil war in Indochina were not so tragic, they would seem perfect raw material for a comic opera.

Bao Dai, the ostensible ruler of the country, occupies himself shooting clay pigeons on the French Riviera while live bullets are zinging and mortar shells are thumping in the streets of Saigon.

For days he has been conducting what might be called "government by cablegram." At the other end of the line, Premier Diem, his pick for the job but now not so high in favor, has an efficient filing system. He files Bao Dai's messages neatly, but ignores them.

One day Bao Dai summoned Diem to the Riviera, seeming to say he was going to give him one more chance, or maybe no chance. Next day one of the premier's aides said: "We're giving Bao Dai one more chance."

Diem, of course, didn't go to Cannes. In fact, a revolutionary committee supporting him got together and announced they had deposed Bao Dai. But just to complicate things, neither Diem nor Bao Dai recognized the move. Diem did say he'd think it over.

Meantime, Diem was busy ordering his army to attack and clean up the country's various rebel private armies operating under the wing of several religious sects and something called Binh Xuyen, an association of former river pirates.

These latter fellows had really branched out in an enterprising way. Evidently weary of traveling, they'd switched to vice and gambling. To make sure their new work would prosper, they took over the police department.

In America our gangsters think they're doing pretty well when they can buy protection from the cops. The Binh Xuyen simply went them one better. Obviously, certain economies are possible when gambling, vice and police are all under one management.

Then there are the generals. One named Le Van Ty is Diem's man, busy mopping up civil war. The other, Nguyen Van Vy, was Bao Dai's man, with notions of taking over for his absentee boss.

One day at the palace, Van Vy stumbled onto some members of the revolutionary committee. He had a sudden change of heart, due perhaps to the fact they threatened to kill him. Diem saved him. Later, Van Vy read a statement saying he'd gone over to Diem, but the words sounded hollow.

The palace staff announced that Van Vy would spend the night there on the studio couch. But around midnight he mysteriously slipped away to his home. Next day he announced he was taking over the whole army, and that Diem was through. Six hours later, at three p.m., his bloodless, manless coup was over and he had fled Saigon for the safety of Bao Dai's country palace.

If that doesn't sound like the corkscrew story line of an opera by Rossini, it'll do until something better comes along.

Bao Dai now says he's going to break off his pigeon-shooting and go down there to rule firsthand. This will hurt the cable business, but it ought to make for a hum-dinger of a second act.

Going to Be a Working Wife?
Take This Quick Quiz First

She is twenty-five years old, has a good job and she plans to be married in June. Her problem is, should she give up her job when she marries or go on working for a time?

She says she likes her job and is afraid she wouldn't have enough to do with her time if she just stayed home all day in a small apartment.

Before any girl tries to solve that problem she should ask herself several questions and answer them honestly and realistically.

How does the man I am about to marry feel about my working?

Why am I considering the idea of holding on to my job? Is it because I think I would miss it, because we will need my pay check, or because I don't have much respect for the woman who is "just a housewife?"

WHAT ABOUT CHILDREN?
Am I reasonably sure that if I don't quit working when I marry, I will be willing to quit in a year or two?

Am I sure that I won't put off having children because of my job? Do I really think I can hold on to a job and keep house without neglecting the more important of the two, making a good home for my husband?

Am I sure that the man I am marrying won't become dependent on my contribution to the family income, and grow to expect me to keep on working after I want to stop?

Those are all important questions for any girl who is trying to make up her mind whether or not to be a working wife.

There would be fewer unhappy marriages if more girls gave adequate thought to the answers to those questions before they decided to combine marriage and a job.

For HAL BOYLE

LONDON (AP) — Captain Robert Ryder, story book hero of World War II, is quitting the House of Commons. He cannot afford to be a member.

Ryder is one of many British MPs who, for financial reasons, could not run again for the May 26 general election.

"I just can't live on the salary," he said in announcing he would not try to succeed himself.

Instead, the 47-year-old hero— he commanded naval forces in the 1942 commando raid on St. Nazaire — plans to go into private business, where employers are more generous.

Ryder, who won the Victoria Cross, Britain's highest military award, is a conservative, but money worries niggle at members from all parties.

Tom Driberg, a popular socialist broadcaster and freelance journalist, also confessed openly that financial considerations kept him from running again.

Britain's MPs earn 1,000 pounds (\$2,800) a year, with an expense allowance of 2 pounds (\$5.60) for each full day they attend the House of Commons.

This works out to roughly 24 pounds (\$72.20) a week for full time attendance.

Out of that, an MP has to keep himself in London when the House is in session, hire secretarial help, entertain the constituents who "look in" at the House — and generally live up to being a member of Her Majesty's Parliament.

Most look longingly toward the United States, where members of Congress had their pay increased to \$22,500 a year under a bill passed in the current session.

After income tax, social security deductions and expenses are paid legislators here have less to keep a family on than the average bank clerk, or the shorthand writers taking down their speeches in the House of Commons.

Altogether, 40 legislators will not be running again for re-election. Some claim ill health, pressure of business or purely domestic reasons, but underlying the resignations, party leaders from both sides admit, is a lot of financial worry.

The World Today

WASHINGTON (AP)—At this point there are two main questions behind the confusion about the anti-polio vaccine: Is it safe? Is the government in any way responsible for some of the confusion?

Is it safe? The experts say yes. But the government is checking. Of the five million children vaccinated since mid-April, 51 have developed polio, 44 of them after being given the vaccine of one company, Cutter Laboratories.

Cutter's vaccine was withdrawn from use. The government is studying it intensively. Whether there is any connection between Cutter's vaccine and the polio in the children who got it may be known within two weeks.

Is the government in any way responsible for some of the confusion? The answer to this seems to be yes. After saying for weeks the vaccine being used is safe, Dr. Leonard Scheele, surgeon general of the U.S. Public Health Service, has called for a temporary halt in vaccinations.

Why? So the government can make a more thorough check on all the companies' vaccines than it did before. And it seems from what is known the government had time to do before what it is doing now.

In last summer's test of the vaccine developed by Dr. Jonas Salk, sponsored by the National Foundation for Infantile Paralysis, all the vaccine used was made by two companies, Eli Lilly and Parke-Davis. Since only several hundred thousand children were getting this vaccine in 1954, only a comparatively few batches of it were needed.

But every one of these batches was triple-checked: by the manufacturers, by Dr. Salk for the foundation, and by the National Institutes of Health, part of the Public Health Service.

The foundation further contracted not only with Lilly and Parke-Davis but with four other manufacturers, including Cutter, to make vaccine for use on perhaps nine million children in the spring of 1955, if results of the 1954 test proved favorable.

On April 12 came the announcement the vaccine had proved 60 to 90 per cent effective. At once, with governmental approval, the manufacturers began distributing it.

When, asked why the government did not check each individual batch, Dr. Scheele said that since the vaccine was first produced, a number of companies have had "continuous experience" in producing it and have "shown their abilities." He explained there had been spot checks and approval of the commercial laboratories' production techniques.

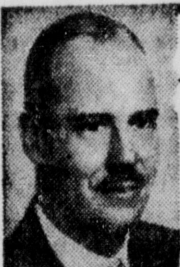

If production of this vaccine began last November, as a foundation official says and it takes 90 days to make—it would seem the health service had time between November and April 12 to check the individual batches. Now it is making a much more thorough check.

Most Successful Treatment For Cataract Is Surgery

By EDWIN P. JORDAN, M.D.
Written for NEA Service

Occasionally one runs on to a person who rushes to have surgery done at the slightest provocation and seems to enjoy the attention received from doctors, nurses, family and friends. More common are those who resist the idea of an operation except under emergency conditions—even when this is far and away the best treatment. An example of the latter is a correspondent who writes "I am getting a cataract on my left eye and wonder if there isn't anything to cure it other than an operation."

BEFORE DISCUSSING cataracts in general it should be said that there is no generally accepted medical treatment for a cataract. There are no drops or medicines which can be put in the eye or given by mouth or injection which most doctors feel will prevent cataract, delay its progress or improve one already formed. This does not mean that such a preparation may not be discovered sometime but only that so far there is nothing of the kind which has received general medical acceptance.

Cataracts may be present at birth or in youth but certainly they are much more common in the middle

and later years of life. Usually the reason for this is not clear but sometimes the development of cataracts may be associated with presence of some disease such as diabetes.

THE FIRST SYMPTOM of a cataract is likely to be blurring of the vision. Objects such as buildings, trees, or mountains will start to look hazy or as if they were in a thin cloud. This is because the lens of the eye has become clouded and like the lens of a camera, it must be clear to reveal a good picture. The image recorded on the brain is like that which passes through the camera lens to the film.

At first the sight is only slightly affected. The amount of clouding depends on the change in the lens of the eye, and the blurriness or cloudiness of vision increases slowly.

THE MOST SUCCESSFUL treatment for cataract consists of an operation. In the past a cataract was considered unsuitable for an operation until it had become mature or "ripe." Now, however, it is possible in many cases to operate on cataracts before they have become "ripe." Of course, this is not always so and one must rely on the advice of the eye surgeon as to

whether operation at a particular time is advisable or not.

The fact that it can be done sometimes has helped many people to regain their vision in a much shorter period of time. When properly treated the outlook for someone with cataracts is not bad at all.

Benson Report Spells Out Low-Income Farm Problems

By PETER EDSON
NEA Washington Correspondent

WASHINGTON (NEA) — The most important background fact on President Eisenhower's latest request to Congress for aid to low-income farmers is where they are and what's wrong.

The President's special message gave only the round total that one-fourth of America's farm families have cash incomes of less than \$1000 a year. A special study submitted by Secretary of Agriculture Ezra Taft Benson spelled this out in more specific terms.

The figures are taken from the 1950 census of agriculture and are already five years out of date. But they show that out of the country's 5,379,000 farm families, 1,513,000 have cash income of less than \$1000.

They are most concentrated in about 1000 of the 3050 U. S. counties where more than half of the farmers are dependent on the income from small, poor farms.

THIS MAKES THE FIRST APPROACH a regional matter in these areas:

The Cascade and Rocky Mountain areas of western Washington, Oregon and Montana.

The mountainous Indian country of northwest New Mexico.

Cutover timberland of northern Michigan and Minnesota.

The Appalachian areas of Pennsylvania, West Virginia, Virginia, Kentucky, Tennessee and the hill country of southern Ohio, Indiana and Illinois.

Then broadly the entire southeastern United States, stretching from eastern Oklahoma, Texas and southern Missouri to the Atlantic coast, taking in southern and western North Carolina and northern Florida.

One-fourth of the farmers in these areas are nonwhite. The average education is less than seven years and only one out of ten is a high school graduate.

THE AVERAGE FARM in these problem areas is only 40 acres, compared to the 120 average elsewhere in the nation. Only one farm in three has a tractor. Eighty per cent of the sharecroppers are in these areas.

Nine-tenths of the farms in these low-income areas have sales of less than \$2500 a year and the average value of land and buildings is less than \$5000.

Except in the Mississippi delta and the Piedmont coastal plains, most of the land is hilly, eroded and poor.

County agents, farm research, conservation, modern farming methods and farm credit have not reached here.

This is, of course, no new problem. From the days of the depression through World War II, the old Resettlement and Farm Security Administrations tackled it. When they were damned out of existence as "red," FHA—Farm Home Administration took over.

During the past 20 years the three agencies have lent over 500 million dollars to help 80,000 small farmers buy or improve family-sized farms. About half has been repaid.

Since 1946, FHA has lent about 750 million dollars to some 500,000 small farmers for equipment, livestock, feed and operating expenses. Two-thirds of this has been repaid.

SO FAR THIS YEAR, FHA has lent 126 million dollars to 65,000 farmers for operating expenses. FHA has also lent or insured 27 million dollars to 3600 small farmers for land purchase. Approximately 125,000 small farmers are now using government credit supplied by the agency.

These figures indicate that there has been some improvement in the low-income situation. In 1930 it was estimated that about a third of the 6,289,000 U. S. farm families, or 2,100,000 of them, had income below \$1000.

Today the total number of farms has dropped by a million and the proportion of small, low-income farms is down to a fourth.

Part of this decline represents abandonment of uneconomic farms and migration of farm workers to the cities.

Another factor that must be considered in the change is that the value of the dollar is now half of what it was.

One new situation that has developed in the past 25 years is that the number of part-time farmers and city workers who merely live in the country, but don't try to farm, has risen from a million to over a million and a half.

In addition to supplying 30 million dollars more credit, more vocational education and more extension services to all low-income farmers, the Eisenhower program calls for exploring the possibilities of finding more employment for them off the farm, to raise their standard of living.

In Hollywood

By BOB THOMAS

HOLLYWOOD (AP)—"There comes a time in every actor's life when he has to think about the future." This truism comes from Dennis O'Keefe, who not only has thought about the future. He has done something about it.

"In a few years, I would have to start slipping out of leading parts and into character roles," he remarked. "If an actor is of the caliber of Walter Huston or Lee J. Cobb, the transition isn't hard. He can become a character actor and make good money at it. But lesser actors don't face as promising a future."

"And as I grow older, I feel the urge to do the things I enjoy doing. When you're young, you're more interested in making money and you take whatever parts come along. But as you mature, it becomes more important to do the things that satisfy you."

A good many actors aim at directing as their life's ambition, but not many achieve it. O'Keefe has, and he couldn't be happier. He nurtured the idea for years, but when he branched it to producers, they would bluster. "Shut up and get back to the set!"

Observed O'Keefe: "I had chances to direct—but on a 15-day schedule. That's too tough for a guy who would be trying to learn. Stars like Robert Montgomery or Burt Lancaster could have long schedules when they start directing, but it was impossible for me."

O'Keefe got his break in Europe. He starred in, wrote, directed and produced a picture called "Angela" in Italy. Still unreleased, it already appears to be a success for him. The picture was bought outright and will be released by 20th Century-Fox.

The Mature Parent

When Anger Gets the Best Of Us, It's Like Poison

By MRS. MURIEL LAWRENCE

One Saturday morning, Doug H. suddenly remembered an old pair of skates in the attic. He needed their leather straps to make a handle for his express wagon, so he went to the attic to get them. He had struck a match to peer behind an old trunk when he heard his father's voice behind him.

"What are you trying to do—set the house on fire?" roared Mr. H. Furious with anger, he struck his son a hard clout on the side of his head. Pushed off balance, Doug felt hitting his forehead against the trunk.

Whereupon Mr. H.'s anger turned around and knocked him off balance, too. Instead of perceiving that his son's bruise needed treatment, he started to abuse himself as the worst father in the world.

Half an hour later, the same anger provoked him into an argument with his wife. By midafternoon, it had given him a headache that was quite as painful as the clout it had administered to Doug.

But, of course, Mr. H. didn't realize that his original anger had gone underground to come back up in the form of this persecuting self-reproach.

Sometime rage may betray us into striking a child. We may hit Jimmy, not to teach him anything, but to hurt him. Oh, yes, such a wish is possible. But because it's been permitted to hurt Jimmy is never a reason to permit it to hurt us, too. The self-reproach in which we often wallow at these times is just as bad. It is the same poisonous thing that attacked Jimmy now recoiled in its snaky way to beat us up.

Today, because corporal punishment is so widely disapproved, parents have awful times with themselves when their anger strikes a child. Self-reproach hounds them mercilessly for their failure in understanding and love. So I want to suggest that venting this form of rage upon ourselves is quite as immoral as venting another form of it on Jimmy. It is another failure.

(And while we're on this subject, let me add that self-judgment for the clout we gave Jimmy is the twin of the self-reproach.)

The work in this situation is always self-forgiveness, not a prayer for Jimmy's. A mistake is never the presence of good, but the absence of it. Morally speaking, it is a zero. To cling to it is to cling to nothing. To get really back under our feet, we work for self-forgiveness.

Down right in this situation is strangling the anger before it gets its chance to put its poison to work.

Interpreting The News

By J. M. ROBERTS
Associated Press News Analyst

World diplomatic developments have taken on a vastly changed aspect in the last 72 hours.

1. Russia has stated she wants to end the cold war. That must be taken with salt. Russia's concepts of what the cold war is and how it can be ended are probably worlds apart from the Western concept. Otherwise that would mean what the world has so devoutly hoped for—that something would happen to change Russia and that international communism as an entity would be dead. The day has not yet come.

What Premier Bulganin really meant is that Russia wants to change tactics for awhile.

2. President Eisenhower and the North Atlantic Council both have lumped Asiatic and European peace together for the first time. The action of the NATO Council in issuing a statement about the Far Eastern situation was unusual, taking it far outside its normal field.

3. Russia has agreed to certain concessions to Western opinion on disarmament. United Nations observers considered this significant, but pointed out that Russia is still sticking to the gimmick of the Security Council veto to prevent any future developments she does not like. This could vitiate any agreement, just as she has violated other agreements such as the one for establishment of free governments in Eastern Europe.

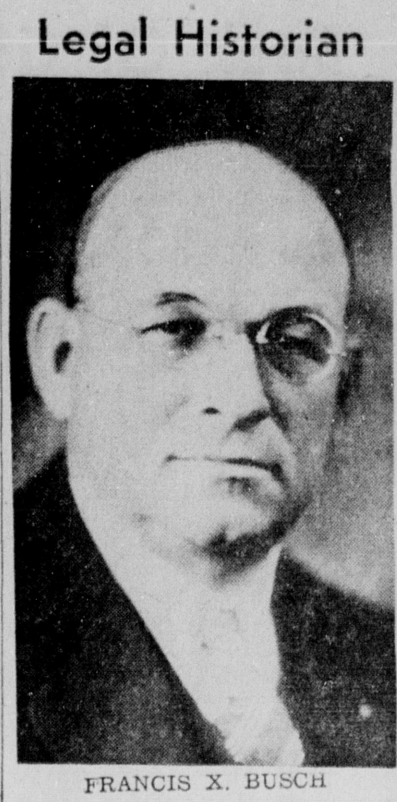

4. Red China's Chou En-lai promised, in reply to a British suggestion, to amplify his recent suggestion at Bandung for talks with the United States.

In this connection, Russia should welcome the President's suggestion that the Big Four talks can range around the world. Moscow has been saying for five years that a conference on that subject should be held.

There is a growing feeling that before anything concrete can be approached regarding the Far East, the Peiping regime will have to be represented in some way in the United Nations.

There is nothing to indicate this is even the beginning of the end of the East-West struggle.

Hopes for fundamental agreements should not be allowed to get too high. But there is no denying that a new chapter in the conflict is opening.

FRANCIS X. BUSCH

Attorney, author and educator, Francis X. Busch, of Chicago, will address a dinner meeting of the Illinois State Historical Society at MacMurray College Saturday evening, May 14. The occasion is the fifty-sixth annual Spring Tour of the Historical Society, which will center in Jacksonville.

Busch, who is dean emeritus of the DePaul University Law School and former corporation counsel of Chicago, will speak on "The Haymarket Riot and the Trial of the Anarchists."

Among the books he has written is a series of four volumes on notable American trials. The latest, "Enemies of the State," published in 1954, contains chapters on the trial of Mrs. Surratt for her part in the assassination of Abraham Lincoln; the Teapot Dome case; the Al Capone income-tax trial; and the Rosenberg treason trial.

Busch's talk will conclude a full-day program which the Morgan County Historical Society expects 200 amateur and professional historians to attend.

In addition to several other addresses on Illinois history the schedule will include a tour of the campuses of Illinois and MacMurray colleges, a visit to the state School for the Deaf and the Braille and Sight Saving School, and tours of Jacksonville's historic sites and the plants of Mrs. Tucker's Products company and the Hertzberg-New Method book bindery.

All of the Historical Society's meetings and tours are open to the public.

Robbie Wessler Entertains For Opportunity Class

The Opportunity Bible class of the Grace Methodist church met Monday afternoon with Mrs. W. E. Hall, Mrs. C. A. Osborne and Miss Laura Fox as hostesses.

Mrs. John Reardon presided during the meeting which opened with the group singing Trust and Obey with Mrs. Edgar Martin at the piano. Mrs. J. I. Graham conducted devotions using as her theme first Corinthians, 13, emphasizing love and closing with prayer.

For the program Mrs. Martin introduced Robbie Wessler who entertained the group with piano numbers and then presented his puppet theater in dance acts to recorded selections and a three act play. He concluded the entertainment with a pantomime of Jerry Mahoney.

Dismissal was made in unison prayer. During the social hour refreshments were served by the hostesses from an attractive tea table centered with a bouquet of mixed garden flowers. Mrs. Kruse poured. There were 23 present.

Blue Lustre Cited As Answer To Carpet Cleaning Problem

RUG CLEANING SOLVED—This attractive housewife solved her rug cleaning problem by using the new Blue Lustre cleaner. It is a foam cleaner that is described as leaving neither gum nor foreign residue in the pile of the rug or carpet.

Science is reported as providing the answer to the bothersome problem of keeping wall-to-wall carpeting bright and clean.

Blue Lustre, a product perfected after long research, is cited as doing the job better than ever before, because of being the most outstanding product of its kind yet developed.

A concentrate, Blue Lustre mixes with water to produce a foam that brushes into the carpet. There's no soaking, and the pile doesn't sog or mat, and the result is that it dries open and fluffy. The final result is that the carpet gleams like new.

After the carpet has been cleaned from wall to wall, a new stain or traffic lane can be available at

Mathews, Adeock Lead Braves Over Pittsburgh 3-3

MILWAUKEE (P)—The Milwaukee Braves nipped a budding Jinx Wednesday by trimming the Pittsburgh Pirates 3-3 on the batting power of Ed Mathews and Joe Adeock.

Mathews slammed a three-run homer in the third and Adeock poked a two-run seventh inning double.

Chet Nichols, Milwaukee's only unbeaten starting hurler, gave up eight hits and started two double plays as he won his third game.

After three straight walks by Pittsburgh starter and loser Ron Kline in the second, Henry Aaron scored Milwaukee's first run on Danny O'Connell's high bounce to short. It became 4-0 in the third when Mathews homered after singles by Billy Burton and Johnny Logan.

The Braves put over four more in the seventh at the expense of Elroy Face, third Pirate hurler.

Indians Edge Yankees 4-3; Turley Walks 8

NEW YORK (P)—The Cleveland Indians cashed in on Bob Turley's wildness for a 4-3 victory over the Yankees Wednesday, scoring three runs in the fourth inning on two of their hits of the game.

Turley yielded three hits and eight walks.

He gave a breath-stopping performance during the early part of the game, then he settled down and made it a real duel against Early Wynn. Wynn allowed the Yanks only five hits, including homers by Andy Carey and Mickey Mantle, as he won his third straight.

Turley's wildness manifested itself in the first inning when he walked the first three men he faced and fanned three in the same inning. After Ralph Kiner struck out, Al Smith scored on a wild pitch. Turley then got Dave Pate and Larry Doby on strikes.

The Yanks got that run back in the same inning.

In the fourth the Indians put together two hits with four more

walks for three runs and that decided the ball game.

The hilltop college resumed track competition this spring after a long post-World War II layoff.

Standing in the rear are, left to right, Coach Al Rosenberger, Henry Jackson, John Taratsas, Ed Harrell, Ogden Munroe, Glen Beamer and Larry Tharp.

Kesterson Fans 10 As Bluffs Bumps Winchester 12-6

BLUFFS—(Special)—The Bluffs Bluejays backed up a near-perfect four-inning pitching performance by Bob Kesterson with a nine run outburst in the fifth inning to whip visiting Winchester 12-6 here yesterday afternoon.

Davis started on the mound for Bluffs, but was yanked after four hits, four walks and two errors had given Winchester three runs in each of the first two innings.

Kesterson came on in the third, and faced only 12 men in the remaining four innings. He fanned ten, walked one man who was later caught stealing, and forced another to ground to third.

Graves and Merriman provided the heavy batting punch for the Bluejays. Graves had a perfect 3-for-3 day at the plate, including a triple with two on in the fifth, and Merriman homered with a man on.

The Yankees trimmed to the player limit by selling pitcher Art Shallock to Baltimore, and optioning pitcher Don Larsen to Denver of the American Assn. Larsen, who had a 1-1 record, came to New York last winter in the big 18-player deal that also brought pitcher Bob Turley to the Yankees from Baltimore.

Shallock had pitched only three innings in relief in two games this spring.

Newhouse, who will be 34 May 20, has pitched only two innings in relief this year for the Indians.

He joined Cleveland as a free agent a year ago.

Ray Kennedy, Kansas City personnel manager, said the A's paid out "a lot of money" for Herbert, as well as substantial cash and pitcher John (Sonny) Dixon to the Yankees. The Yankees then sent Dixon to Denver.

The Athletics also recalled Hector Lopez, a second baseman, from Columbus of the International League, and sent Forrest (Spook) Jacobs to the same club. Lopez

A's Buy Four, Indians Release Newhouse As Squads Cut To 25 Men

By THE ASSOCIATED PRESS

The Kansas City Athletics bought two pitchers and two outfielders and the Cleveland Indians gave veteran lefthander Hal Newhouse his outright release Wednesday in a series of transactions aimed at cutting major league squad limits to 25 men by midnight.

Desperately seeking added pitching and hitting strength, the A's purchased pitcher Johnny Sain and outfielder Enos Slaughter from the New York Yankees, outfielder Harry Simpson from Cleveland and pitcher Ray Herbert from the Detroit Tigers.

The Yankees trimmed to the player limit by selling pitcher Art Shallock to Baltimore, and optioning pitcher Don Larsen to Denver of the American Assn. Larsen, who had a 1-1 record, came to New York last winter in the big 18-player deal that also brought pitcher Bob Turley to the Yankees from Baltimore.

Klaus Clouts First As Bosox Nip Chicago To Break Loss Streak

BOSTON (P)—Billy Klaus' first major league home run, a two-run blast in the seventh inning, and some clutch relief work by Ellis Kinder in the ninth enabled Boston to snap a five-game losing streak with a 4-3 victory over the Chicago White Sox Wednesday.

Kinder came in for winning pitcher Frank Sullivan after a walk to pinch hitter Willard Marshall and a single by Chico Carrasquel.

Boston held a 4-2 lead at that point with no one out. Ed McGhee, who ran for Marshall, scored on successive fly balls by Nellie Fox and Minnie Minoso but the game ended on George Kell's pop up to second.

Klaus, the team's shortest once Milt Bolling and Eddie Joost were injured, followed a Sammy White single with his home run.

Then Boston, apparently inspired by the news Ted Williams would soon be with them, got the run that won it in the eighth when Harry Agganis hit a sacrifice fly to bring in Billy Goodman who had doubled.

Rockets Murder Perry 17-2; Long, Shanahan Star

PERRY—(Special)—Coach Jim Smarjesse's visiting Routt Rockets smashed out a 17-2 victory over Perry here yesterday afternoon.

Joe Shanahan and Jack Long put the distance into the Rocket attack. Shanahan, who enjoyed a perfect 3-for-3 day at the dish, homered in the first with a man on and connected for three bases with two on in the sixth. Long poled a two-bagger with the sacks full in the second.

Shanahan pitched the first two innings for Routt, allowing one hit and a single run. Dowling held the hosts hitless for the next three, and Pagano, who came in to clean up, allowed three more safeties and Perry's final run in the sixth.

Trainer Expects Ted Will Return To Bosox Lineup In Two Weeks

By BOB HOOBING

BOSTON (P)—Ted Williams, one of baseball's greatest hitters, ended his retirement Wednesday with a phone call to the Boston Red Sox that he would arrive Friday.

"There's no use waiting any longer, I'll be in Friday," Williams said.

He called Gen. Mgr. Joe Cronin from Miami where the final settlement of his divorce was recorded Wednesday morning.

"I'm not going to wait any longer," Ted told Cronin. "I've spent two days with my daughter. I'd made up my mind to play baseball again before the settlement was completed."

Although Williams never has explained his now discarded decision to quit baseball, friends said his marital difficulties were the principal reason.

Under terms of the decision handed down in the Miami court, Williams must pay his divorced wife \$50,000 within two years, giving her at least \$125 weekly.

He also must pay \$100 monthly for support of their daughter, Barbara, 7.

The arrival of the long ball hitting lefthander, with 366 home runs and a .348 lifetime batting average in over 12 years of major league play, comes at the right moment psychologically for the slumping Sox.

Boston lost five straight and 11 of its last 12 games prior to Wednesday's game. The Red Sox beat Chicago 4-3 Wednesday.

"I'm very pleased," echoed Manager Mike Higgins. "I'm anxious to see what condition he's in and how soon he can play."

As usual, contract terms were not announced by the Red Sox.

However, Williams will not be getting a full year's salary because of reporting late.

Williams received an amount re-

ported between \$80,000 and \$100,000 annually over the past several seasons.

"I've been fooling around with a heavy lead bat," Cronin quoted Williams as saying about his conditioning. However, Cronin mentioned that Ted wouldn't be able to get in the lineup right away.

Trainer Jack Fadden said a Ted needs is to callous his hands, sharpen up his reflexes and he'll be ready to play.

"That's no more than two weeks," Fadden said.

Pittsfield Buries Visiting Barry In 13 To 1 Slugfest

PITTSFIELD—(Special)—Pittsfield slugged out a 13-1 victory over visiting Barry here yesterday afternoon.

Dicke started on the mound for the hosts, and was replaced by Perry in the third. Ruble went all the way behind the plate.

Bowker and Dillings shared pitching chores for Barry, with Hoskins catching.

Khoy Sanderson homered with man on in the third for Pittsfield, and Bill Vannatta tripled for the hosts with a man on in the ninth.

It was Meyer's first loss to Chicago since July 16, 1950.

For the high-flying Dodgers, it was their first defeat since a 10-inning, 11-0 reversal by the New York Giants April 24 and only their third setback in 25 games this season.

Meyer, who was followed by five Dodger pitchers, including Billy Davis, who yielded a single to 40-year-old pinch hitter Walker Cooper in the seventh which provided the ninth and decisive Cub run.

The 10th Chicago run also came in the seventh on Peeewe Reese's throwing error on Banks' grounder which scored Ransom Jackson from second.

Rookie John Andre started for the Cubs, but left for Hal Jeffcoat in the fourth. Jeffcoat in turn needed help from Jim Davis in the seventh.

Davis was credited with the victory, his third against one defeat, getting the nod perhaps on his forcing Jackie Robinson to hit into a game-ending double play after Dixie Howell had doubled and Gil Hodges singled with one out in the Robinson, 3b 3 0 1 1 1

New York Stock Market

NEW YORK (AP)—Stock market prices were marked down somewhat steeply Wednesday with aircraft catching a major share of selling attention.

The fall went all through the market although resistance was found in several sections that held fairly steady.

Prices were off \$1 to \$3 frequently and other minus signs went on out to as much as \$8. Gains usually were small with some running to \$1 to around \$3.

Down with the aircraft were many chemicals and electronics issues. Steadiness prevailed in the movie issues, building materials and distillers.

Brokers found no specific news development to account for the quiet weakness of the market.

The Associated Press average of 60 stocks was off \$1.20 at \$162.70. The industrial component declined \$2.00, rails were off 90 cents, and utilities were lower by 10 cents.

Business amounted to 2,120,000 shares as compared with 2,150,000 shares traded Tuesday.

The American Stock Exchange was lower with volume at 680,000 shares as against 750,000 shares Tuesday.

New York Bond Market

NEW YORK (AP)—Corporate and U. S. government bonds declined Wednesday.

"Big Bond" volume increased to \$3,810,000 par value from \$3,350,000 Tuesday as all sections of the corporate list lost ground.

Convertible obligations followed the stock market downward. Investment quality and medium-grade railroads, utilities and industrials also eased. However, most losses were less than a point and there were many issues fighting the trend.

U. S. government bonds ended unchanged to lower in slow over the counter dealings.

CHICAGO LIVESTOCK MARKET REPORT

CHICAGO (AP)—In a very slow market butchers lost 25 cents while hogs sold steady to 25 cents lower Wednesday. Salable receipts at 10,000 head were 1,000 more than expected.

Buyers paid \$17.00 to \$17.75 for most choice 190 to 230-pound butchers but went up to a top of \$18.00 for a few lots. Butchers scaling 240 to 280 brought \$16.25 to \$17.00. Sows sold from \$12.00 to \$15.00.

Producers cut back shipments of cattle. Salable arrivals totaled only 7,000 head, 5,000 fewer than expected. The result was a 25-cent to \$1.00 advance in most steers, although utility to low commercial grades were only steady. Heifers advanced 25 cents.

High choice to mostly prime steers sold at \$25.50 to \$28.00, the top. The bulk of choice to low prime steers brought \$22.00 to \$25.25 and good to low choice grades \$19.00 to \$21.50. Most good to high choice heifers went at \$19.00 to \$23.00, although some reached \$23.25 and \$23.50.

Cows held steady to 25 cents higher at \$11.25 to \$14.50 for utility and commercial. Vealers were steady. Good and choice sold for \$22.00 to \$27.00 and utility and commercial \$20.00 to \$21.00.

Salable sheep receipts totaled 1,500. Lambs and sheep generally held steady. Good and choice shorn lambs with No. 1 and No. 2 pelts were taken at \$17.00 to \$18.00.

WHEAT, RYE WEAK IN MIXED MARKET

By WILLIAM FERRIS
CHICAGO (AP)—New crop wheat, as well as all rye futures, had a weak undertone in an otherwise mixed grain market on the Board of Trade Wednesday.

May wheat ended higher on a late rally. This rally also substantially reduced losses on new crop wheat and rye. Corn was the firmest cereal, although ending below its day's best levels.

Wheat closed 1 cent lower to 1/4 higher, corn 1/4 lower to 1/4 higher, oats 1/4 lower to 1/4 higher, rye 1 1/2-2 1/4 lower, soybeans unchanged to 1/4 lower and lard 12 to 22 cents a hundred pounds lower.

Selling in both wheat and rye followed upon Tuesday's Agriculture Department crop report. A further weakening factor in wheat was receipt of scattered moisture in parts of the winter wheat belt.

The government forecast a winter wheat crop of 652,886,000 bushels. This was slightly higher than the forecast last week of C. M. Galvin. Many grainmen had expected the government report would be under Galvin's estimate.

For rye the government estimated a crop of 29,345,000 bushels. This would be a fairly good gain over last year's production of 29,668,000 bushels.

There never was any really aggressive buying in soybeans. Bean oil eased 1/4 in the spot market to sell at 12 cents a pound. Bean meal was quoted at \$54.50 a ton, a low for the year.

Washington Book Sells For \$25,000

NEW YORK (AP)—A journal of George Washington, one of America's rarest books, brought \$25,000 at auction Tuesday night. It will go on display at colonial Williamsburg, Va. Mrs. John D. Rockefeller, Jr., provided the money.

The journal was published at Williamsburg in 1754. The colonial capital was restored largely with Rockefeller family funds as a public museum of Americana.

The book, written by Washington at the age of 21 while he was a major in the British Army, reported on his expedition to the Ohio wilderness to investigate French encroachments there.

POPE HAS SLIGHT COLD

VATICAN CITY (AP)—Pope Pius XII was reported Wednesday to have a slight cold and sore throat.

A source close to the 76-year-old pontiff said the indisposition had not prevented the Pope from his usual daily work.

MET WITH "IKE"—President Eisenhower discussed the proposed Big Four meeting with Republican Congressional leaders at their regular weekly legislative conference. Senate Republican leader Wm. Knowland, left, and House Minority Leader Joseph Martin tell White House newsmen that the President gave them a "brief report on the foreign situation relative to a Big Four conference."

State Legislature

Unemployment Pay
SPRINGFIELD, Ill. (AP)—Gov. Stratton's administration proposal on unemployment compensation law revisions was presented Wednesday in the Illinois General Assembly.

A bill filed by Reps. John W. Lewis (R-Marshall), William E. Pollack (R-Chicago) and others would raise the maximum jobless pay benefit from the present \$27 a week to \$40 a week, depending on family status.

The present ceiling is the same for a single man as for a married man with dependents.

Under the proposed legislation the \$40 top would be received by an unemployed person with four or more children.

Little important business was transacted Wednesday by either house or Senate.

In the House, Rep. A. B. Ne-wonnell (R-Woodstock) unsuccessfully sought to upset an adverse committee recommendation Tuesday on a bill to raise from one to three years the residence requirement under the poor relief program. His motion was tabled 75 to 53. The vote was a defeat for Stratton, who backed the proposed change.

McConnell said Illinois had become a "dumping ground" for a good many states, particularly in the South, where relief grants are much lower. Indigents come to Il-

linois to claim higher awards, he said.

"Land of Lincoln"

The House passed and advanced to the governor's desk bills to make "Land of Lincoln" the state slogan and to double the financial responsibility standards for motorists.

If Stratton approves, the responsibility figure for bodily injury or death of one person would rise to \$10,000, and liability as the result of any one accident to \$20,000.

Other Bills

Passed by the House and referred to the Senate were bills to provide penalties up to \$300 and six months in jail for use of obscene language over the telephone, and to set up a \$25,000, 10-member legislative commission to study the feasibility of transporting water from Lake Michigan to drought-stricken areas downstate.

A pipeline or an aqueduct paralleling the Illinois Central Railroad right of way were mentioned as possibilities.

Call Letter Plates

Gov. Stratton Wednesday signed into law a bill permitting the state's amateur radio operators to receive auto license plates bearing their station call letters.

The bill specified that an additional \$3 would be charged, over and above the cost of the license, for the service.

Old Stalinist Rule Returns To Russia And Her Satellites

By WILLIAM L. RYAN
AP Foreign News Analyst
The party above all, in all things.

That, in substance, is the current Communist party line for the satellite states of Europe, as directed by Moscow.

It means the "new course" sponsored by the deposed Soviet Premier Georgi M. Malenkov not only has ground to a halt but is being steadily reversed to fit the old Stalinist way of life.

It means, for example, that: An average worker in Poland will have to resign himself for a long time to working 140 hours for a woolen shirt, 100 hours for a pair of leather shoes, or 12 hours for a pound of butter.

Knowland Fearful Of 'Sellout' At Big 4 Conference

PEORIA, Ill. (AP)—Sen. Knowland (R-Calif.) sees in President Eisenhower's proposal for a Big Four conference danger of "a sellout, the likes of which occurred at Yalta, Potsdam and Geneva."

He spoke Tuesday night at the 44th annual meeting of the Peoria Assn. of Commerce only a few hours after the President had invited British Prime Minister Eden, French Premier Faure and Soviet Premier Bulganin for an informal discussion on world affairs.

Knowland, Senate majority leader, declared, "The Communists have not basically changed their long-term strategy of conquering the world, including the United States."

President Buys First '55 Poppy
WASHINGTON (AP)—President Eisenhower today paid \$5 for the first 1955 poppy sold by the American Legion Auxiliary.

Mrs. Percy A. Lanson of Port Madison, Iowa, president of the auxiliary, pinned the poppy to the President's coat lapel. She also gave him a corsage of poppies for Mrs. Eisenhower, and a sample plate from a set of dishes which the auxiliary is giving the Eisenhower family for their new country home at Gettysburg, Pa.

Various service programs are financed by the sale of poppies made by disabled former servicemen in hospitals.

Could Test Russians' Sincerity

(Continued From Page One)

On other matters the President: 1. Refused to comment on the statement of House Speaker Rayburn (D-Tex.) that the administration gave cruel treatment to Federal Trade Commissioner James M. Mead, Mead, a former Democratic senator from New York, is being replaced by Indiana Democrat William Kern when his term expires.

2. Said he'd like to see statehood bills for Hawaii and Alaska considered separately by Congress. The House Tuesday voted down a bill proposing statehood for both. Eisenhower has urged admission of Hawaii as a state, but takes the position Alaska is not ready.

Program Receiving Careful U.S. Study

(Continued From Page One)

One Russian proposal which attracted some real interest here was that there should be a fixed ceiling on the number of men in the armed forces of the United States, Russia, Red China, Britain and France. This is something the Western powers have talked about in the past when they were trying to establish the principle of equalizing Russia's power with that of the West.

In the long section dealing with disarmament the Reds also made their usual call for a ban on the use of nuclear weapons to be followed by an end to their production and eventually destruction of such weapons.

One of the most puzzling elements in the whole program is the proposed system of inspection and control. The Soviets suggested an international control agency under the United Nations but U. S. officials could not understand just how it might work.

The agency would have inspection posts in big ports and at railway and road junctions and airfields. That way, the Soviets argue, the inspectors would know whether any nation was preparing a great war. The Western Powers have always contended that inspectors should be free to go anywhere in any country.

End To Cold War In Europe

(Continued From Page One)

U. S. Ambassador James J. Wadsworth, American representative on the U. N. Disarmament subcommittee which is meeting in London, commented: "Clearly our patience and persistence are paying off on some points. We welcome this development."

In Warsaw, representatives of eight Soviet bloc nations meeting to form a Red military alliance heard from Soviet Premier Nikolai Bulganin a declaration that the Bonn Republic makes the Germans "again a threat."

Bulganin said the Soviet Union, nevertheless, is prepared to support any acceptable proposal that might lead to German unification. He said the Russians want to end the cold war. He pledged that his government will study carefully the Western proposal for a Big Four conference of chiefs of government.

The Russian proposal for restrictions on atomic weapons "may be important," said Canadian Foreign Secretary Lester Pearson, here for the NATO conference. But Gen. Alfred Gruenther, Supreme Allied Commander in Europe, said the free world would be handicapped by abolishing the atomic bomb.

"because it is our only chance of equalizing the present disparity in conventional power," which favors the Reds.

With the NATO conference over, the American, British and French foreign ministers remained in Paris to give a hard look at the Soviet plan and to prepare for the signing of an Austrian independence treaty in Vienna Sunday.

U. S. Secretary of State Dulles, old Macmillan and French Foreign Minister Antoine Pinay withheld immediate comment.

When her mother, Carmella, 43, discovered the pills missing she asked each of her six children whether they had taken them. Linda said she had. The child was rushed to Cook County hospital where she died.

The Basiles' family doctor estimated the child had swallowed 17 of the candy coated pills. He had prescribed them for the mother.

Nuclear-Powered Sub Develops Small Leak

GROTON, Conn. (AP)—The nuclear-powered submarine Nautilus returned unexpectedly Wednesday to her maker's yards here at the Electric Boat Division of the General Dynamics Corp., delaying a long shakedown cruise.

A Navy spokesman said a "small leak" developed but that it could be repaired quickly and enable the ship to resume its cruise Thursday.

Capt. Slade Cutter, readiness officer at the submarine base here, said Cmdr. Eugene P. Wilkinson, skipper of the Nautilus, reported that the leak was in a spot not readily accessible for sea repair. Cutter did not give the exact location of the leak but said it was not connected in any way with the sub's nuclear reactor.

The Nautilus was only about 20 land miles at sea when the leak was discovered, said Cutter, and that bolstered Wilkinson's decision to return.

The Nautilus left here Tuesday to take her to San Juan, Puerto Rico. Aboard were Adm. Robert Carney, chief of naval operations; Adm. Robert P. C. Briscoe, deputy chief of naval operations for fleet operations; and Rear Adm. Frank T. Watkins, commander of the Atlantic Fleet Submarine Force.

Carney was landed by small boat at the eastern tip of Long Island at 5:30 a.m. today, indicating the submersible spent the first 25 hours of its shakedown operation in the Block Island Sound area demonstrating her diving abilities and other characteristics to the high-ranking officers aboard.

APPLY ADAGE, "IF THE MOUNTAIN" ETC. TO TV ENJOYMENT

Like many families with small children who find watching television a come and go situation due to the Mechanical "interference" of the kiddies, Mr. and Mrs. George L. Vaniter of 511 North East street have solved the problem, at least for the time being.

Their small son, one year old George, Jr., insisted on manipulating the adjusters on the television set and losing the picture for his parents.

This trying habit got a little old to the parents. Since the little boy felt too adult to remain in his play pen, as who wouldn't when they were adept in tuning television, the elder Vaniters placed the television set in the playpen for protection from George, Jr.'s accommodating adjustments.

\$45,000,000 Nuclear Power Plant To Be Built On DesPlaines River In N. Illinois

Boiling Water Reactor Nuclear Power Plant — The above artist's drawing shows a cut-away view of the 180,000 kilowatt plant proposed for the Chicago area. The reactor, turbine generator and related equipment will be enclosed in a steel sphere about 200 feet in diameter.

The proposal of Nuclear Power Group to build a full-scale nuclear power plant financed entirely with private funds is one step closer to realization, Allen Van Wyck, president of the Illinois Power company, announced Tuesday.

On March 31, 1955, the Nuclear Power Group submitted, through the Commonwealth Edison Company a proposal to the Atomic Energy Commission for the construction of a plant of the boiling water type. This proposal was subject to the approval of the respective boards of directors of the five companies associated in the Nuclear Power Group.

The commission has been notified that all the boards have taken the necessary action.

The members of the original group were: American Gas and Electric Service Corporation; Bechtel Corporation; Commonwealth Edison company; Pacific Gas and Electric company and Union Electric company of Missouri.

Bechtel is an engineering and construction company. The others are electric utilities.

Subsequent to submitting proposals, two other electric utilities already have joined the original group to participate in the project. They are the Central Illinois Light company and the Illinois Power company. The entire group of companies will organize a non-profit

research corporation which will be called Nuclear Power Group, Inc. If the proposal is accepted by AEC, the General Electric company will be prime contractor and the Bechtel Corporation will act as engineer-contractor for General Electric.

The companies associated in this venture are of the opinion that the prospects for competitive operation of some future reactor of the boiling water type now warrant, in the interest of the electric utility industry and in the national interest, the construction of a full-scale electric generating plant powered by such a reactor. This type of reactor, originated by the Argonne National Laboratory, eliminates the need of a heat exchanger in the production of steam for the turbine. The full scale reactor for this plant is being designed and developed by the General Electric company and includes a dual cycle steam system.

The General Electric company has contracted to build the plant for \$45,000,000, a price considered to be very favorable.

In addition it will make substantial research expenditures.

The plant will have a net electrical capacity of 180,000 kilowatts and is scheduled for completion in about five years.

The plant will be owned and op-

erated by Commonwealth Edison company and will be located on a 750-acre site near the confluence of the Kankakee and DesPlaines rivers in Grundy county, Illinois. The project will be financed entirely with private funds with Commonwealth Edison paying \$30,000,000 toward the contract price.

Commonwealth Edison will also spend an estimated \$4,500,000 on transmission facilities to integrate the proposed plant with its transmission system.

SO MUCH MORE CAR... AT SUCH A LOW PRICE!

Plymouth judged "America's Most Beautiful Car" by famous professional artists, the Society of Illustrators

BEST BUY NEW; BETTER TRADE-IN, TOO

Have you compared price tags on Plymouth and the other two cars in the lowest-price field lately? And, by the way, have you checked prices on the medium-price cars that claim they cost as little as Plymouth? If you have, you've discovered three facts of great importance to everyone planning to buy a new car:

1

Model for model, all low-price cars are priced about the same. The important thing is that the Plymouth price includes such items as electric windshield wipers, an oil bath air cleaner, resistor-type spark plugs, and a high-output generator; items you have to pay extra for on the other cars. (And don't be fooled by the claims of so-called medium-price cars that they cost as little as Plymouth; add total prices—you'll see the difference quickly.)

2

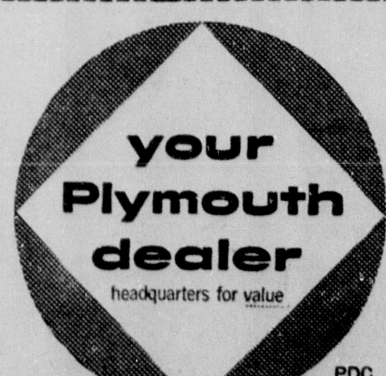

Prices of the big, beautiful Plymouth are surprisingly low! You get a car that's not only larger and roomier than all the other cars in Plymouth's field, but actually bigger than some cars costing many hundreds of dollars more! In its field, only Plymouth gives you the smooth, steady ride only a truly big car can give. And when it comes to endurance, Plymouth leads them all! That's why there are more Plymouths used as taxicabs than all other cars combined!

3

When you compare VALUE, Plymouth is like the high-price cars in everything but the price tag! It's the only low-price car this year with all-new, Forward-Look styling. (That means there'll be a good demand for this model when trade-in time comes.) In powerplants, Plymouth offers the thriftiest, smoothest six, and the most powerful standard V-8 in the lowest-price field. Inside, it's the roomiest, most comfortable car of "all 3," and has the greatest visibility.

A lot of people are finding out that Plymouth's low price offers the most value per dollar of any car in its field. So many people, in fact, that Plymouth sales have been record-breaking this year. This means a generous trade-in allowance on your big new Plymouth. See your dealer today, and you'll see why the big swing this year is to PLYMOUTH.

"Under The Sea"
Novel Theme For
Carrollton Prom

CARROLLTON—"Under the Sea" was the theme of the annual Junior-Senior prom which was held following a banquet Saturday evening in the Carrollton Community Unit school. The gymnasium assumed a nautical air with the walls painted in blue representing the sea. The theme was further carried out by a giant octopus which was suspended from the ceiling over a beach on which had been placed sea shells. The music for the dance was furnished by Ronnie Klaus orchestra from Alton and the orchestra pit was in the form of a large open mouthed clam constructed of pink and white napkins and wire meshing.

The banquet was served in the auditorium of the school and the welcome to the seniors was given by Miss Susie Ligon, president of the junior class with the response being given by Stanley Tribble, president of the senior class. The class history was read by Miss Shirley Camerer, the class will by Miss Becky Becholdt and the class prophecy by Miss Janie Graham.

Refreshments of cookies and fruit drink prepared by members of the Home Bureau were served. Guests present were Mrs. Elmer Roegge, Mrs. Donald Busen, Mrs. Karl Franke, Miss Mary Louise Lutkehus. The next meeting will be held at 8 p.m. Friday, May 13, at the Morrison home.

DEATH OF A LEGEND

XXVII

AS Jesse burst out of the bank, the first Northfieldian fell. He was an unarmed, noncombatant laborer, and was literally torn apart by bandit bullets as he ran for cover. His senseless execution was the spark that blew up Northfield.

Enraged, one of his armed fellow townsmen ran out onto the sidewalk, blasted a shotgun charge at point-blank range into Clell Miller, now mounted up with Charlie Pitts, guarding Jesse's and Bob's horses. The charge struck him full in the chest and face. Spraying blood, he fought blindly for leather, found the horn, stayed in the saddle. Jesse and Bob were now both clear of the bank, crouching behind their tied horses, fighting furiously at the knotted reins.

Bill Chadwell, riding between Frank and Jim Younger, took a Winchester bullet through the heart. He slid out of the saddle so quietly his companions did not know he had been hit until his riderless horse galloped past and ahead of them.

Clell Miller, still streaming blood, kicked his horse away from the bank's hitchrail, abandoning Bob and Jesse to the closing crowd. A Civil War musket boomed from the window of Allen's Hardware. The 50-caliber ball passed through both lungs, severing an artery. Clell struck the dirt of Division Street, "flopped around like a crazy chicken and died right there in front of the bank."

Frank took a slug through the right calf. Cole was shot in shoulder and thigh. Both were still mounted when Jesse, at last freeing his black from the rail, hammered toward them.

At the hitching rack, Bob, desperately wounded, right arm shattered from wrist to elbow by two Spencer slugs, his horse shot dead in his tracks, shouted after

of planned retreat had so foolishly depended lay dead in the dust of Division Street. And dead with him lay the best chance of any man among them leaving Minnesota alive.

They were in a strange land. It was a deadly, flat land, thickly timbered, cross-cut by a dozen small streams, blind-trapped with a hundred uncharted lakes.

The village of Dundas, three miles south of Northfield, loomed ahead. They rode through it, their horses five abreast. No one challenged the bandits.

THE news of Northfield was already chattering the Dundas telegraph key. But the key chattered alone. The telegrapher was away, absent from his board on a half-hour errand.

In Millersburg, reached at 4 p. m., the preposterous luck held. The regular telegrapher was at home, sick in bed. His assistant had locked the key open, gone down to the Little Cannon River to try for a fat wall-eye or trying-pan bass.

More curious gaped, more good citizens stared.

Younger met one farmer and relieved him of a fine horse. A second mounted native was encountered and lightened of the load of his saddle. Bob Younger was mounted again.

For the first time since leaving Northfield, there were sound horses all around.

Twilight came quickly on. Ahead lay 12 hours of darkness. Twelve hours which, with any reasonable continuance of their unbelievable luck, could take them 50 miles and more toward freedom. Tired muscles relaxed, jawlines eased.

But luck was done with them. Six miles from Millersburg, Bob Younger's borrowed saddle parted its girth. The tall youth fell heavily in the darkness, crushing his injured arm beneath him. He remembered the bursting shock of the pain, and nothing more.

Cole took him in his arms, like a great, blood-smeared child, carrying him unconscious before him as he rode.
